Commissioner for Patents

Alexandria, VA 22313-1450

Sir:

In accordance with 37 C.F.R. §§ 1.56, 1.97, and 1.98, Applicant respectfully requests consideration of the references listed on the attached Form PTO-1449. Copies of the references listed and not previously submitted are also enclosed.

Applicant respectfully requests that the Examiner consider the references cited on the Form PTO-1449 and that the Examiner indicate that the references have been considered in this application by returning a copy of the Form PTO-1449 with the Examiner's initials in the left column per MPEP 609.

A non-final Office Action on the merits has already been issued in the current Application. Pursuant to 37 C.F.R. § 1.97(c)(1), Applicant states that the two U.S. Patents (5,658,329 and 5,700,289) listed on the Form PTO-1449 were not cited in a communication from a foreign patent office in a counterpart foreign application and that these items were not known

to any individual designated in 37 C.F.R. § 1.56(c) more than three months prior to the filing of this paper.

Applicant notes that EP 153672 was previously submitted to the Patent Office, but without an English language translation. This reference was not considered by the Examiner as evidenced by the Form PTO-1449 returned to the Applicant with a non-final Office Action mailed February 25, 2004. Applicant submits herewith a published English abstract for EP 153672 which Applicant believes complies with the concise explanation of relevance pursuant to MPEP 609(A)(3).

The references identified on page 2 of the attached Form PTO-1449 were previously submitted to the Examiner on page 2 of a Form PTO-1449 filed on October 6, 2003. The Examiner indicated in the Office Action mailed February 25, 2004 that these references were not considered because the Form PTO-1449 incorrectly identified the Application as U.S. Application No. 10/227,265.

Applicant acknowledges that the page of Form PTO-1449 not considered by the Examiner contained an inadvertent typographical error that misidentified the Application number, although this page, submitted as the second of two pages, was attached to a first page and a cover page both of which correctly identified the application number of the instant Application. Applicant further notes that each of the filing date, first named inventor, art unit, Examiner name, and attorney docket number were correct on the page not considered. As Applicant has now corrected the typographical error, Applicant respectfully requests that the Examiner initial the Form PTO-1449 and return it to the Applicant per MPEP 609. Applicant regrets any inconvenience the inadvertent error may have caused.

Therefore, Applicant believes that no fee is due as the only references not previously

submitted to the Patent Office were not previously known to the Applicant and the appropriate statement under 37 C.F.R. § 1.97(c)(1) has been provided. In the event that a fee is required for this submission, authorization is given to charge the undersigned's Deposit Account No. 50-0206 in the appropriate amount.

Date: April 7, 2004

Respectfully submitted,

Stanislaus Aksman
